GENERAL INFORMATION

The 21ST International Exhibition on Industrial Machinery, Equipment, Technology and Products in Ho Chi Minh City VINAMAC EXPO 2025

Welding & Cutting Technology –Metal & Metallurgy
Control & Automation–Electronics, Bearings and Surface treatment

VINAMAC EXPO 2025 is a leading exhibition brand in Vietnam's industrial manufacturing sector. It is a key specialized trade fair for mechanical automation, welding & cutting, metalworking & steel metallurgy, mechatronics-electronics, as well as materials technology. Held annually in May in Hanoi, the capital of Vietnam, the exhibition targets major industry clusters in the Northern region. Concurrently, it hosts numerous professional supply-demand matchmaking activities such as: specialized exhibitions, business matching with selected guests, professional forums, visits to domestic factories, and specialized market surveys.

Venu: Friendship Cultural Palace

Date: May 14 - 16, 2025

Scale: 10.000 m2

Supported by : Ministry of Industry and Trade, Ministry of Science and Technology, Vietnam Trade Promotion Agency, Da Nang Department of Industry and Trade, Bac Giang Department of Industry and Trade, Quang Ninh Department of Industry and Trade, Bac Ninh Department of Industry and Trade và các related units

Organized by: Ho Chi Minh City Department of Industry and Trade, Vietnam Association of Mechanical Industry (VAMI), Vietnam Automation Association (VAA), Ho Chi Minh City Automation Association (HauA), Ho Chi Minh City Association of Mechanical and Electrical Enterprises (HAMEE), Vietnam Welding Society (VWS), Ho Chi Minh City Welding Engineering Association (HAWEL), Vietnam Steel Association (VSA).

Exhibit Categories

Mechanics and Automation

01

Industrial machinery, machine tools, specialized and multi-purpose machinery, industrial components, assembly tools, factory automation, CNC technology and industrial automation, robots, artificial intelligence applications, etc.

Electrical Tools & Hardware

02

Air compressors, electric motors, generators, bearings; electromechanical testing and processing equipment, safety protection equipment, power tools and hand tools, screws, cutting tools and grinding stones, pumps, valves, etc

Welding & Cutting Technology

03

Welding robots, metalworking technology, laser welding technology and equipment, cutting technology and related supporting products.

Metal & Metallurgy

04

Metallurgical technology, precision casting technology, steel products and equipment, mineral mining and processing technology, non-ferrous metal industry equipment and technology, surface treatment, metalworking and forming technology, etc.

Materials Technology

05

Related industrial raw materials, metal materials, adhesive materials, thermal management materials, chemical materials, lightweight materials, EMI shielding materials, surface treatment materials, etc.

Supporting Industries & Other Fields

06

Supporting industry products, molds, 3D technology, logistics and distribution technology; energy-saving technology, production and application of auxiliary materials, etc.

Delegates attending the Opening Ceremony
